While we've committed to this in a few cases, I believe it's a PS hack. I recommend we position it my way as it resonates better with the clients' security folks.

What should we be claiming with respect to data retention in IAV? It appears that we may be incorrectly stating what we do with IAV data. We tell clients that the IAV product can be configured to purge the credentials and account data immediately after the IAV is complete.

Hi Brian/Brad,

We are answering some follow-up questions regarding IAV. I have answer for most of this stuff, but I've embedded a question below for each of you.

Subject: Partner Panel Follow Up

Hi Bob,

I wanted to provide a summary from the partner panel meeting last week as well as a high level time line for next steps in the process.

The session went very well and there are just a few questions I need to follow up on before moving on to the Risk Council. The council only meets once a month so July would be the next time we could get into their session. I have requested to be

HIGHLY CONFIDENTIAL - ATTORNEYS' EYES ONLY

YODLEE_WESCH_0739904

YODLEE_WESCH_0739903

included in July's session. Once approval is obtained and IT provides a ROM of technology need, it moves on to "pitch day " for funding. This process starts at the end of June and ends in August for 2017 funding.

Thank you for your patience and let me know if you need any clarification on the questions listed.

Hi Lisa – I left you a voice mail yesterday- sorry I missed you. When you get a minute can you give me a call. Thanks!

Bob
